FY2026
CCWS, SYSTEM DEVELOPMENT, AND METER INSTALL SCHEDULE

Meter	Equivalent	CCWS	System	Meter	DWR	Total
Size	Meter Ratio	Fee	Development	Installation	Transfer	Charges
			Charge	Charge	Charge	
5/8" X ³ / ₄ "	1	\$3,370	\$6,404	\$375	\$100	\$10,249
1"	3	\$10,110	\$19,212	\$485	\$200	\$30,007
1-1/2"	7	\$23,590	\$44,828	\$990	\$500	\$69,908
2"	14	\$47,180	\$89,656	\$1,095	\$750	\$138,681
3"	30	\$101,100	\$192,120	\$1,935	\$750	\$295,905
4"	45	\$151,650	\$288,180	\$3,015	\$750	\$443,595
6"	80	\$269,600	\$512,320	\$3,360	\$750	\$786,030
8"	115	\$387,550	\$736,460	\$3,700	\$750	\$1,128,460
10"	150	\$505,500	\$960,600	\$4,970	\$750	\$1,471,820
12"	185	\$623,450	\$1,184,740	\$5,465	\$750	\$1,814,405

Equivalent Meter Ratio: The ratio of safe operating capacity of various sizes of meters, relative to the capacity of a 5/8" X 3/4" meter as determined by the American Water Works Association Manual of Practice 1, latest edition, with local meter capacities incorporated.

CCWS Fee: A fee to obtain a conditional commitment for water service (CCWS) to real property located in the District's authorized service area that has not previously received water service.

System Development Charge (SDC): A charge to finance growth related or capacity related water facilities.

Meter Installation Charge: A charge for District staff to install a water meter at the property.

Division of Water Resources Transfer Charge: An administrative charge to cover District costs to prepare and file various documents relating to water rights.
